

Glory

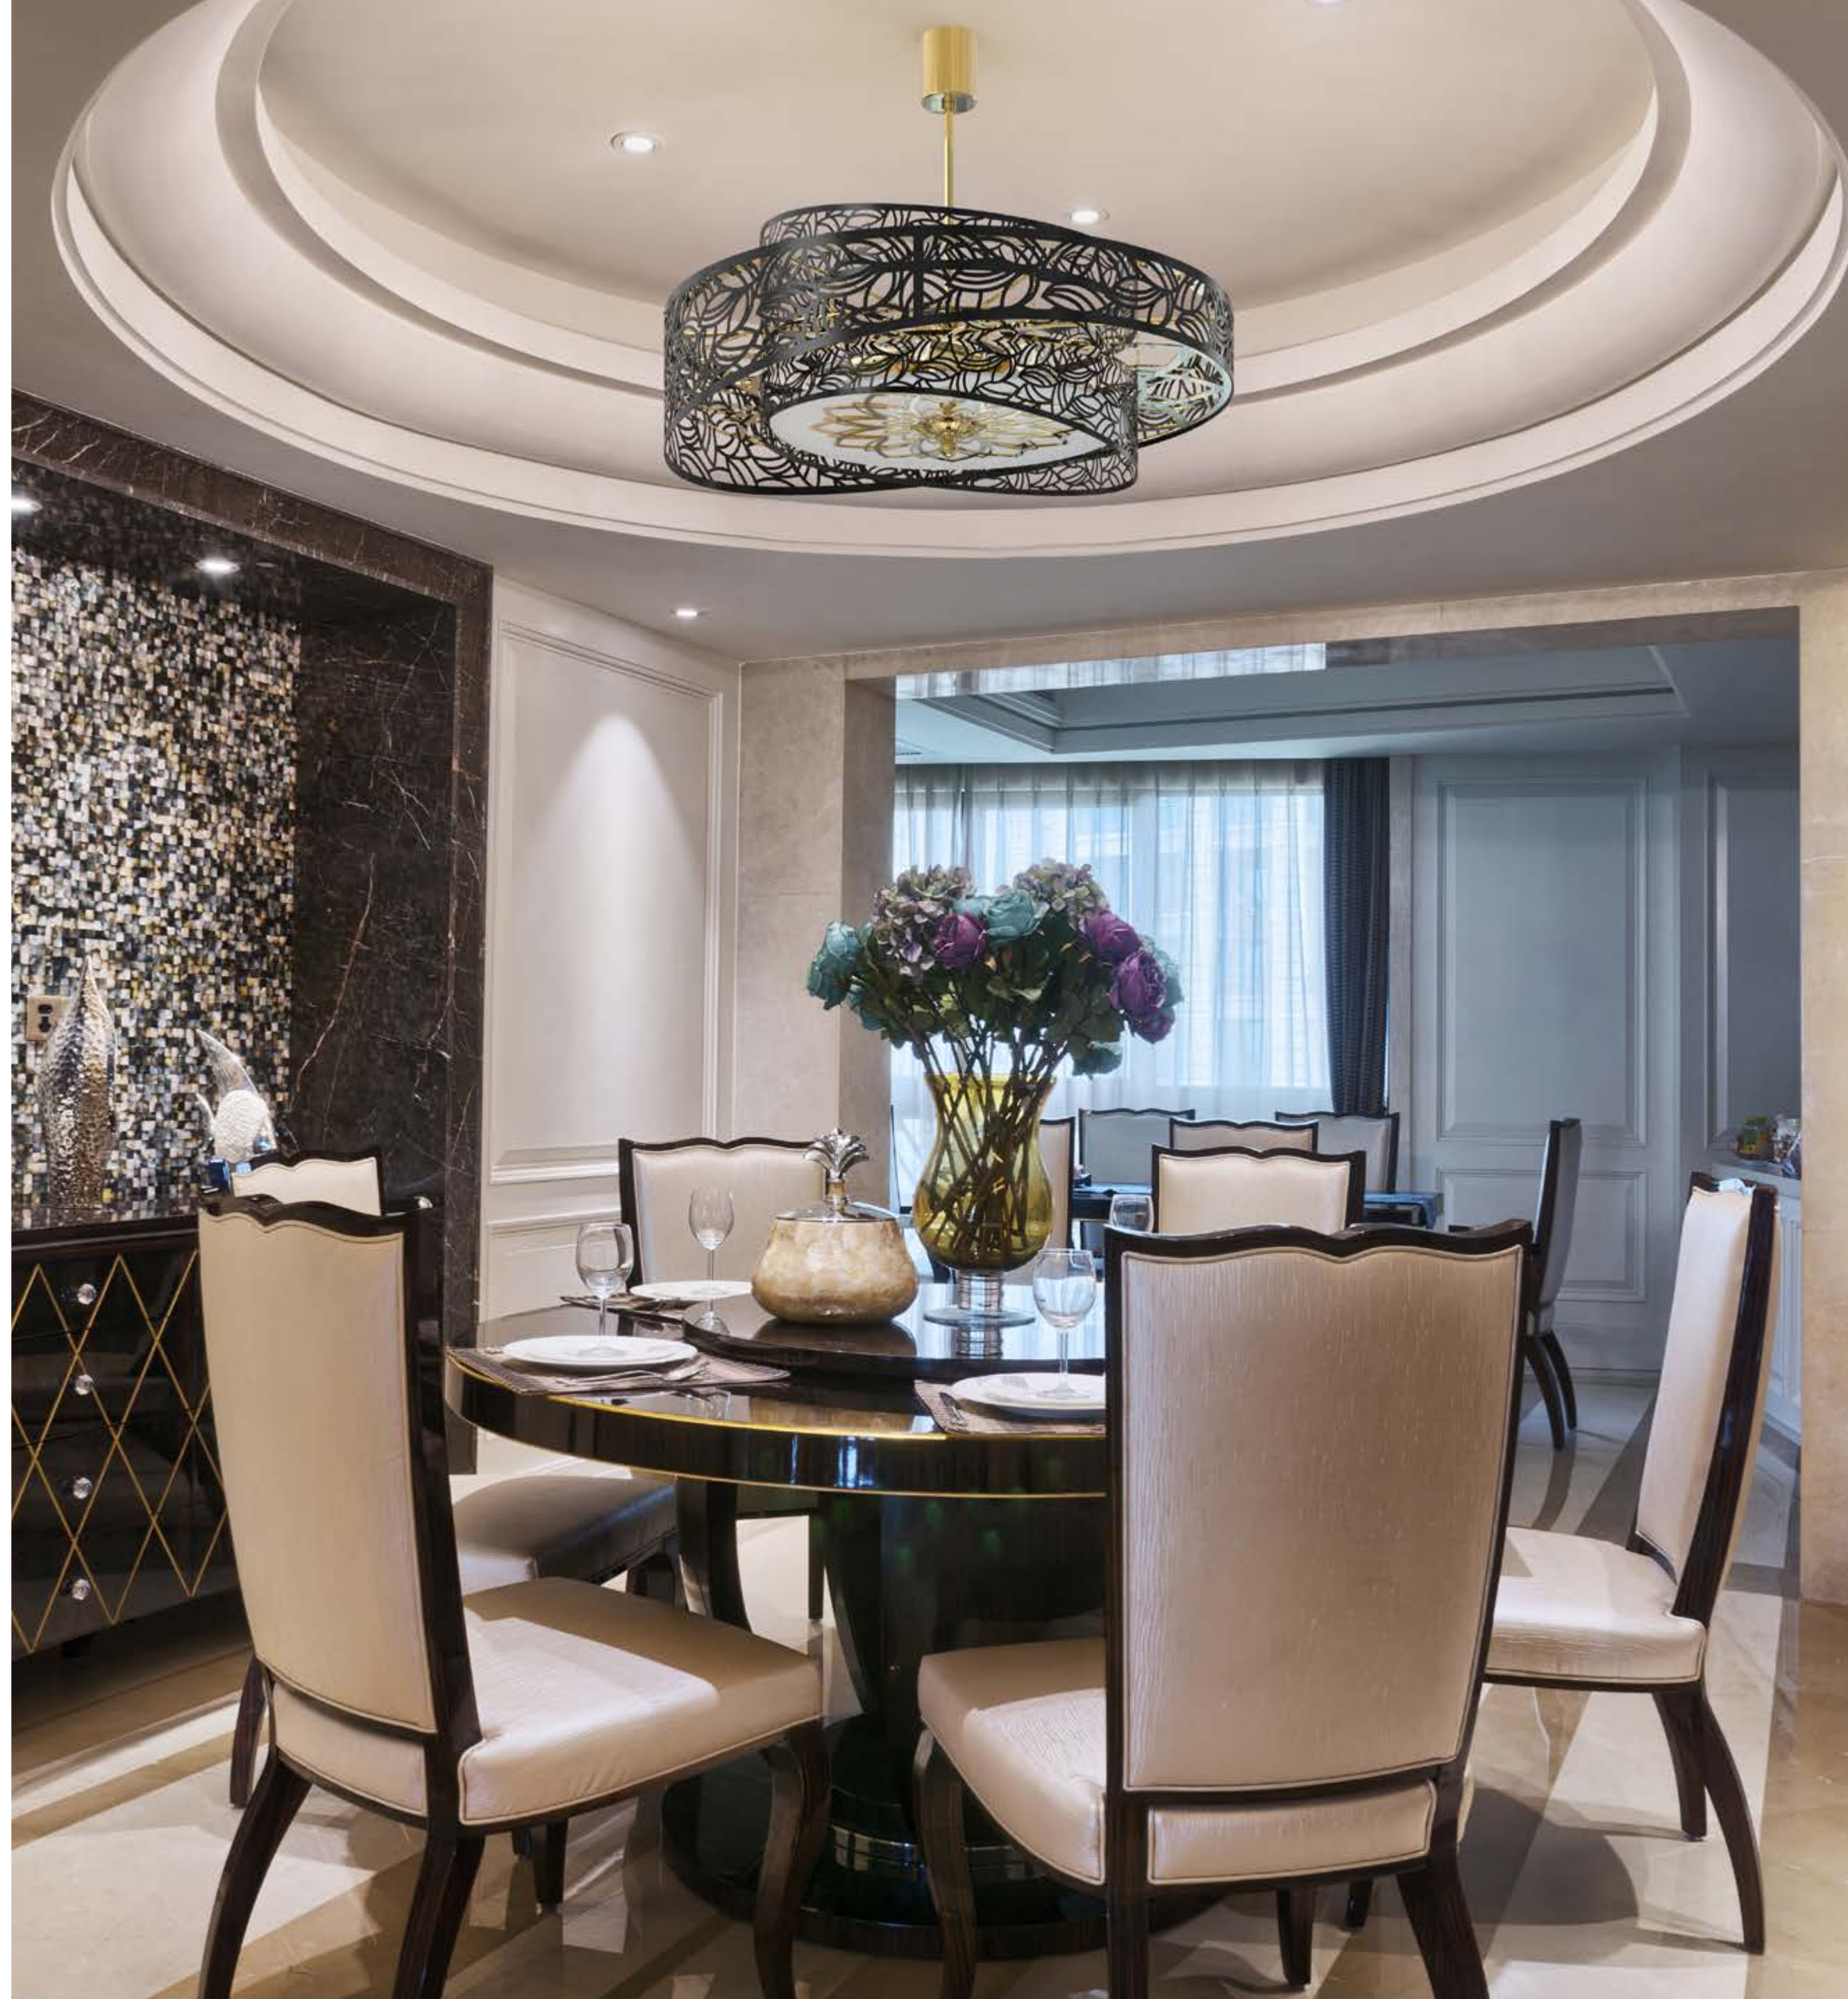

Glory

Glory is another of our collections inspired by the beauty of nature. The perforated metal shade carries a recurring motif of the lotus flower, which has become a symbol of purity and rebirth thanks to the shape of its bloom, scent and colour. The lotus grows up from the muddy soil through the water to the surface, where it develops its rich bloom. The path of the lotus to reach the sun's rays symbolises the spiritual development of human beings. Glory will bring a touch of nature and harmony to your interior.

The Glory collection offers a wide variety of different designs and colour combinations of surface finishes, and some types can be complemented by glass bubbles, which complete the illusion of the path of the lotus flower up to the water's surface. Each of the surface finish colour options you see in this presentation is available for any type of Glory lighting fixture.
